

MARKET CATEGORY

AI Pastoral Care, Ethics & Meaning-Making Platforms

BACK-OFFICE AI TERM

AI Ethics / AI-Augmented Pastoral Care / Human Meaning in Autonomous Systems

CATEGORY HOOK

The intersection of AI and spiritual life is no longer a thought experiment — it's a pressing institutional challenge. Hospitals deploying AI in palliative care, churches navigating AI-generated sermons, and counseling practices integrating autonomous tools all face the same question: how do you bring human meaning into machine-driven systems? The Sacred Agentic category names that frontier.

PRIMARY BUYER

Religious institutions exploring AI-augmented pastoral care, hospital chaplaincy programs, mental health platforms integrating spiritual care, and ethics scholars studying AI and human meaning.

IMAGINE SCENARIOS

HolyAgentic.com A platform for religious communities navigating AI adoption — training clergy, counselors, and lay leaders on ethical AI integration in spiritual settings.

AgenticChaplain.com An AI-assisted chaplaincy tool for hospital systems — supporting human chaplains with real-time family communication, documentation, and care coordination.

AgenticSpirit.com A mindfulness and meaning-making AI companion for enterprise wellness programs — bringing depth to digital wellness beyond productivity metrics.

AgenticShaman.com A transformative leadership coaching platform that integrates ancient wisdom frameworks with AI-driven personal development — for the next generation of purpose-driven executives.
